Gentlemen;

I've been reading quite a bit about this commercial Korean air liner that was shot down by the U.S.S.R., and like most people, I'd like to know more than I read or see on the television. That is why I'm writing. I'd like to find out if you have any additional information you could give me, if you could spare a few minutes of your busy day. I'm also interested in any personal information, both about the principals, and your own personal opinions, or those of other official sources.

I would like to compile some of this information, if possible, to submit somewhere for publication. This, of course, will depend entirely upon my ability to gather any new information or opinions, and your cooperation. I hope you can help me. This is my first real attempt at writing about something of this international magnitude. Since I respect and value your opinion, even your own thoughts would be of great help to me. Any referrals to other sources would be greatly appreciated, also.

Thank you in advance for your assistance and for taking the time to read this far. I anxiously await your reply.

Sincerely Yours:
